SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, JavaScript
- **Web & Backend:** Node.js, React.js, HTML5, CSS3, Postman, Express.js
- **AI/ML & Data:** TensorFlow, PyTorch, NumPy, Pandas
- **Tools/Platforms:** Git, GitHub, Docker, SDL3, Prisma, Mongoose
- **Databases:** MySQL, MongoDB
- **Operating Systems:** Linux (Ubuntu, Kali), Windows
- **Professional Skills:** Data Structures & Algorithms (DSA), OOP, Leadership, Project Management, Problem-Solving, Communication

PROJECTS

Secure Credential Manager

June 2025

- A credential manager built using the MERN stack with a cryptographic technique. It uses CryptoJS and Bcrypt for encryption and hashing and JWT for session management.
- Implementing MFA using Google and authenticator apps to add an extra layer of security.
- No two stored credentials use the same key for encryption and decryption of stored credentials; each credential has its own unique key.
- Symmetric encryption (AES) uses the same key for encryption and decryption.

[GITHUB](#)

Spam Email Classifier

Jan 2025

- Developed a spam email classifier ML model that classifies email as spam or not spam.
- Used TF-IDF for features and SMOTE for imbalanced class.

[GITHUB](#)

Classic Snake Game

Dec 2025

- Developed a snake game using C and the SDL3 graphics library.
- Memory management is done using pointers, and snake movement is tracked using linked list implementation and pointers.

Experience

Project Admin & Open-Source Contributor | GSSoC 2025

Jun 2025-Oct
2025

- Managed open-source project as Project Admin, reviewed PRs, and mentored contributors.
- Coordinated with mentors and contributors, resolving issues, and assigning tasks.
- Actively contributed to other open-source projects as a contributor, implementing features, fixing bugs, and improving documentation.

CERTIFICATIONS

- Social Networks | *NPTEL*
- The Bits and Bytes of Computer Networking | Google
- Introduction to Hardware and Operating Systems | IBM

ACHIEVEMENTS

- Solved 400+ DSA problems across LeetCode for strengthening problem-solving and algorithmic and critical thinking skills
Jan 2026
- Completed Job Simulation of Deloitte

EDUCATION

- **Lovely Professional University**
Bachelor of Technology - Computer Science and Engineering
CGPA: 7.8

Punjab, India
Since- Aug-2023
